## experience our backyard

*So much of your backyard experience is hard to capture in pictures.*

*Think of the sound of running water, the coolness of water misters, the impact of lighting, the texture and look of decking materials --- just a few of the advantages of our living display areas.*

## monthly features

*Each month we feature special events. See the NEWS section of our web site for details.*

- **Garden Clubs & Exotic Plants**
- **Kitchens & Outdoor Rooms**
- **Backyard Contractors**
- **Safety, Energy & Conservation**
- **Charity - of - the - Month**

*Our exhibits display exclusive outdoor and energy efficient technologies. We feature the best of North Florida backyard products -- offering a lifestyle you won't want to leave --*

## Your Vacation Is Here – In The Backyard

## We Take Conservation Seriously

*Not all GREEN products are what they claim. Come see if the 'green' and 'sustainable' specifications hold up in your North Florida backyard.*

## Site Specific – Specialty Contractors

*Each backyard has unique and special design conditions. Your project requirements are site specific. That is why 'just seeing something' in a catalog or on the web is probably not the way to insure you get the effects you want. The experience of a full, three dimensional exhibit may help your decision.*

## Waterfront Property

*One of the great joys of the Florida lifestyle is time by, in and on the water. For many Florida property owners it is 'right in their own backyard'.*

## Outdoor Rooms

*A Florida lifestyle means outdoor living. We are experts in fitting a backyard space with your personal choices: Custom Kitchens, Tiki Huts, Gazebos, Sunrooms and more*

*Products exhibited by Backyard Living include materials which have extended warranties, conserve energy, and handle exposure to diverse site conditions. We help you sift through the clutter in the home improvement industry and find products to trust.*
