

## Making Your Backyard Better

### Check Out The Process

The following is an outline of the development steps to improve your backyard space.

**Items highlighted in this color emphasize energy and water saving decisions.**

For further ideas and information, go to our web site <http://www.backyardliving.us/>

#### STEP #1 --- Review / Educate

- You visit the outdoor showroom and see the possibilities
- We visit your site
- Together we agree on **priorities** and budgets
- We estimate your project cost (range)

#### STEP #2 --- Plan

- We prepare a 'bubble design'
- We identify your development team
- You review the 'bubble design' and **development team**
- **Outline product selection**
- We prepare final design and contract proposal

#### STEP #3 --- Start

- You accept design and contract(s) / Pay Deposit
- **Deconstruction & Site Preparation**
- Contractor Coordination / Assign Point People

#### STEP #4 --- Progress

- You review progress (if over 30 days)
- We prepare monthly progress statements

#### STEP #5 --- Finalizing

- You review progress
- We prepare warranties and contract closing documents
- We **prepare sustainable reporting procedures**
