

Waterfront Sustainable Products

Unsure about buying 'green', 'blue' or 'sustainable' products?

Not all products are worthy of a TECHBlue Waterfront Sustainable Product Listing. Research products using 'yes or no' answers to public information and as a quick reference:

Low Impact – Products contribute to the overall low environmental impact of the construction site.

3 Rs – Products contribute to the overall recycling, reclaiming, and reuse of water resources.

Certified & Tested – Manufacturers provide certifications and testing results which conform to industry environmental standards (i.e. ISO 9000, ISO 14001) & Best Management Practices.

Experience – Manufacturers provide documented portfolios of experience and project sites.

Warranties – Manufacturers provide Extended Warranty Information and applications to the waterfront.

Community and Industry Concern – Manufacturers provide documented portfolios on company community outreach programs.

Industry Leader – Manufacturers provide conformance data on EPA programs (examples):

- Waste Wise
- Water Sense
- SmartWay Transport Partnership
- Performance Tracking

Freight – Manufacturers provide for regional freight consolidation (500 miles availability)

Cost – Manufacturers subscribe to production and installation methods which promote waterfront construction efficiency.

Sample Review Table

Provider Name	State	Market Area	Review Codes
Manufacturer A – most favored	FL	U.S.	C,EPA,TIa,TIc,,ISO,W,G,O,F, 15
Manufacturer A - median	FL	U.S.	C,TIa,TIc, 5
Manufacturer C – needs help	FL	U.S.	None, 2

- Commitment policies (C)
- Enlistment in EPA Programs (Waste Wise, Water Sense, Performance Tracking)
- Trade Industry affiliations (TIa)
